

Transcript Review Form

As a United States Department of Veterans Affairs (VA) approved training provider, UMBC Training Centers is required to review the transcripts of all prospective students utilizing their GI Bill Benefits prior to registration.

Students must obtain a copy of their official transcripts from all institutions of higher learning and career education and submit them to a UMBC Training Centers' Admissions Representative for review of prior experience or credit. The Department of Veteran Affairs will not authorize the usage of VA funding for future classes that contain similar content to those in which prospective students have taken in the past. If a UMBC Training Centers' representative deems that similar content has been received at another institution, the VA must provide written authorization before the prospective student can be enrolled in a UMBC Training Centers' program or class.

To confirm your compliance with request above, please select one of the options below, sign and return this document along with all documents necessary to complete your registration using GI Bill funding.

- I confirm that all transcripts pertaining to my prior higher education and/or career training have been submitted to UMBC Training Centers for review. (attached)
- I confirm that I have no transcripts pertaining to my higher education and/or career training to submit to UMBC Training Centers pertaining my prior higher education and/or training have been submitted to UMBC Training Centers for review.
